

Dear Colleagues,

This summer I hope to share ideas and strategies for AP European History in a seminar with you at Woodward Academy July 19-22. One practical suggestion in the meantime is to visit AP Central, AP European History Home Page. Scroll down to the list of articles for one titled “The Home Stretch: Review Strategies that Work.” You will find my review strategies described there and in the summer we can discuss whether they worked for you and ways they might be modified for your classes.

Also I encourage you to bring to the workshop your own textbook so that we can each construct a syllabus for the fall. Bring your questions and problem areas to discuss as well. I am looking forward to a challenging and productive time together. Don’t hesitate to be in touch ahead of the conference, too, if you have particular requests for our time together.

Sincerely yours,

Sue Chaney Gilmore, Ph.D.
AP Social Studies Faculty
